

## **Project Planning Phase**

### **Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)**

|                      |                               |
|----------------------|-------------------------------|
| <b>Date</b>          | <b>29 June 2026</b>           |
| <b>Roll no</b>       | <b>23A51A4299</b>             |
| <b>Project Name</b>  | <b>Laptop Request Process</b> |
| <b>Maximum Marks</b> | <b>5 Marks</b>                |

### **Sprint Planning – Laptop Request Process**

A Sprint is a fixed period during which a developer completes a set of planned tasks.

An Epic is a major feature that is too large to complete in a single sprint and is divided into multiple User Stories.

A User Story is a small functional requirement that contributes to completing an Epic.

A Story Point estimates the effort required to complete a User Story using the Fibonacci sequence (1, 2, 3, 5).

### **Story Point Estimation**

#### **Story Point Complexity**

- |   |                |
|---|----------------|
| 1 | Very Easy Task |
| 2 | Easy Task      |
| 3 | Moderate Task  |
| 5 | Difficult Task |

### **Sprint 1**

#### **Epic 1 – Application Setup**

| User Story Description | Story Point |
|------------------------|-------------|
|------------------------|-------------|

|       |                                              |   |
|-------|----------------------------------------------|---|
| USN-1 | Create Scoped Application                    | 2 |
| USN-2 | Create Service Catalog Item (Laptop Request) | 3 |

### **Epic 2 – Catalog Form Development**

| User Story Description | Story Point |
|------------------------|-------------|
|------------------------|-------------|

|       |                                                       |   |
|-------|-------------------------------------------------------|---|
| USN-3 | Create Catalog Variables (Laptop Type, Justification) | 3 |
| USN-4 | Configure Mandatory Fields                            | 2 |
| USN-5 | Configure Catalog Item Properties                     | 2 |

### **Total Story Points in Sprint 1**

= 2 + 3 + 3 + 2 + 2

= **12 Story Points**

---

## **Sprint 2**

### **Epic 3 – Workflow Automation**

| User Story Description | Story Point |
|------------------------|-------------|
|------------------------|-------------|

|       |                                                  |   |
|-------|--------------------------------------------------|---|
| USN-6 | Design Flow in Flow Designer                     | 5 |
| USN-7 | Configure Manager Approval                       | 3 |
| USN-8 | Create Catalog Task Automatically After Approval | 3 |

### **Epic 4 – Notifications**

| User Story Description | Story Point |
|------------------------|-------------|
|------------------------|-------------|

|       |                                            |   |
|-------|--------------------------------------------|---|
| USN-9 | Configure Email Notifications to Requester | 2 |
|-------|--------------------------------------------|---|

### **Epic 5 – Testing & Deployment**

| User Story Description | Story Point |
|------------------------|-------------|
|------------------------|-------------|

|        |                                       |   |
|--------|---------------------------------------|---|
| USN-10 | Test Complete Laptop Request Workflow | 3 |
| USN-11 | Fix Issues and Activate Flow          | 4 |

### **Total Story Points in Sprint 2**

$$= 5 + 3 + 3 + 2 + 3 + 4$$

$$= \mathbf{20 \text{ Story Points}}$$

---

### **Total Story Points**

#### **Sprint   Story Points**

Sprint 1 12

Sprint 2 20

Total    32

---

### **Velocity Calculation**

#### **Formula**

Velocity = Total Story Points Completed ÷ Number of Sprints

#### **Calculation**

$$\text{Total Story Points} = 12 + 20 = 32$$

$$\text{Number of Sprints} = 2$$

$$\text{Velocity} = 32 \div 2$$

$$\text{Velocity} = \mathbf{16 \text{ Story Points per Sprint}}$$

---

### **Final Result**

- Sprint 1 = **12 Story Points**
- Sprint 2 = **20 Story Points**
- Total Story Points = **32**
- Velocity = **16 Story Points per Sprint**
